

Architectural internal doors

polytec's Architectural internal doors offer a wide range of door solutions for commercial and residential applications. Their durability, functionality, and aesthetic appeal, make them a popular choice for architects and designers alike.

Manufactured from solid E-Zero LDF, **polytec**'s Architectural internal door range are 35mm in thickness and are available in a selection of 8 different timber print colours, with subtle woodgrain embossing. Sized to suit any interior opening and conveniently offered in heights of 2000mm to 2700mm, with widths up to 1200mm. They provide a sleek and modern appearance, allowing a consistent flowing aesthetic with the ability to colour match and complement internal joinery palettes.

Discover **polytec**'s collection of Architectural internal doors for a crafted and sophisticated look for your interior spaces.

COVER IMAGE: **ARCHITECTURAL** internal door in Empire Oak Woodmatt.

Dark coloured surfaces will show fingerprints and require more care and maintenance than lighter coloured surfaces. It is recommended to test a product sample prior to colour selection. **polytec** swatches and samples represent a small area of the overall colour structure. To view the large colour sample, visit www.polytec.com.au.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au.

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection and **polytec** recommend testing a sample for fingerprint resistance and ease of cleaning. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.

Visit www.polytec.com.au for specific care and cleaning information.
