STECAWOOD stone range

Stone Steccawood by **polytec** offers a range of natural stone and marble designs, which will add an element of luxe to your space. They're not only versatile, and sustainable, but also present a cost-effective solution to producing the look of stone.

Available in Marmo di Monte, Marmo di Torre, Portland Stone, and Athena Stone. All four options have a Smooth finish and are a realistic alternative to fluted honed stone.

Made from E-Zero MR MDF or LDF and available in 10 different profiles, gives you flexibility depending on your design style. These profiles are supplied as prefinished battens in a 3600mm length. Other sizes are also available as made to order, subject to minimum order quantities.

Create that classic, yet contemporary modern look with Stone Steccawood by **polytec**.

Steccawood is certified Australian Made & Owned.

View the **polytec** Steccawood brochure to see the full range and availability.

Smooth

Dark coloured surfaces will show fingerprints and require more care and maintenance than lighter coloured surfaces. It is recommended to test a product sample prior to colour selection. **polytec** swatches and samples represent a small area of the overall colour structure. To view the large colour sample, visit www.polytec.com.au.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au.

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection and **polytec** recommend testing a sample for fingerprint resistance and ease of cleaning. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.

Visit www.polytec.com.au for specific care and cleaning information.

Benchtop in **LAMINATE** Portland Stone Matera. Bar panel in **ULTRAGLAZE** Mink Ultramatt. Doors and drawers in **ULTRAGLAZE** White Ultramatt.

Steccawood products are manufactured in Australia using the highest quality materials, designed to be used in low traffic applications to provide years of trouble free service. Manufactured using decorative paper overlays, Steccawood is supplied with raw ends that must be sealed prior to installation. Steccawood should not sit on the floor as wet mopping and vacuum cleaners are likely to cause damage. Strictly for internal use, Steccawood is not to be used in wet areas such as bathrooms or environments of high humidity, or where steam and heat are present. Steccawood is recommended not to be installed in direct sunlight. Adhesive materials such as sticky tape, masking tape, or any sticky material may cause damage to the Steccawood decorative paper overlay when applied directly to the surface.

Steccawood can be cut to length however should not be cut in a lineal direction. It is recommended best practice to seal cut edges to prevent moisture ingress.
